Subject: BOR Fiscal meeting 4/17

Good Morning Representatives,

Once again, thank you for your time and dedication to our city. I apologize for the presentation last night, I've been battling the flu and did the best I could before my voice went out completely.

I did make one error regarding our manpower. Including the officers in training we are at 283 officers according to our admin officer. This is still a low number, but we have become expert at triaging calls and duties with the manpower that we have available.

If anyone has any questions that were unanswered last night, please feel free to reach out to me any time.

Respectfully,

Jim Matheny
Assistant Chief of Police
Investigations and Special Operations
