City of Stamford Controller's Office

Budget Presentation FY 2019-20

Introduction

Mission: The Controller's Office mission is to maintain the books and records of the City of Stamford and its various agencies, functions and departments by supporting the General Accounting, Accounts Payable, and Payroll functions and ensuring that prudent accounting policies, procedures and practices have been established which are supported by well-designed and operationally effective internal controls.

Pro	grams	Services Provided
	□ 1032 Transaction Processing & Financial Reporting	See next page
	□ 1034 Internal Audit	See next page
	□ 1035 Cash Management	See next page

Services Provided

Program	Services Provided
1032 Transaction Processing & Financial Reporting	 Maintain reliable financial systems for processing transactions and accurate supporting records for the following functions: General Accounting – Tracking fund balances for the General Fund and 18 other governmental funds Accounts Payable – Processing invoices and other payments due for all City operation including the BOE, averaging almost 800 payments each semi-monthly disbursement cycle Payroll – Generating wage and salary payments for over 4,000 full-time and seasonal City and BOE employees Periodically report the City's financial results (as well as for the other governmental funds - pensions, OPEB Trust, OTHRA, Capital Projects, Debt Service, etc.), as needed. Also, oversee annual audit of the City's financial statements by the City's independent auditors and the preparation of audited financial reports for the City's pension plans, the SWPCA, and the Single Audit reports for the Board of Education.
1034 Internal Audit	Provide assurance regarding compliance with City's policies and procedures, input regarding internal control design and adequacy, operational efficiency (including recommendations for improvement), and independent verification of facts and circumstances, as required, for board and mayor's administration decision making.
1035 Cashiering & Cash Management	Monitor and support City's cashiering and treasury activities, including payment processing through outside service providers

Department Management

Key Program/Department Challenges

- Year over year department expenses reflect only minimal changes due to structural costs and contractual increases
- Pending retirements and resolution of union related issues may prevent the retention of experienced employees who want to convert to part-time status
- Payroll staff are currently working on the implementation and upgrading of payroll processing software package that should help reduce level of manual intervention by IT, Fire, Police, and the BOE in submitting time and attendance information for payment

Budget Scenarios

- Purely discretionary items represent less than 10% of the total Controller's Office budget
- Significant budget reductions would reduce preparedness for the annual audit, functional coverage for vacations and sick time that would immediately impact other areas of the City, and possibly weaken internal control over financial reporting by reducing current segregation of duties
- Department has already significantly cut banking fees and postage through adoption of ACH wire payments instead of preparing and mailing checks

This is what is coming

Major changes planned for the department

- Current payroll software package has been used for 30+ years and will no longer be supported by the vendor. New package implementation will allow for enhanced supervisory review and more timely payments (e.g. Custodian overtime, Police overtime, etc.)
- Internal Auditor will be undertaking review of mold remediation costs to ensure propriety and following up on past recommendations to continue to address any weaknesses in internal control, efficiency, etc.
- Once payroll software implementation is substantially complete, Controller's Office will be looking at General Ledger software packages, establishing baseline project funding needs for Planning Board review and approval, and issuing an RFP
