Valerie,

Could you please forward the email below to the other Land Use committee members.

Virgil

Subject: South End Zone Change

Dear Members of the Land Use Committee,

It came to my attention the City of Stamford Planning Board made changes to a block in the South End providing higher density for development purposes.

This change does not seem to help maintain the character of the existing neighborhood.

I oppose this change and request that the Committee support the appeal being heard on February 27, 2019.

I hope the Committee will support residents of Stamford over a developer.

Thank you for your consideration,
Dave Judge
