---

Dear Mr. de la Cruz:

I have recently spoken separately with the Mayor's Office, the Land Use Bureau Chief and residents of Stamford regarding preservation efforts in the South End. It sounds like there are some encouraging initiatives that the city is considering implementing and I am aware that residents of the South End are also interested in establishing a local historic district.

Rather than continue to speak to different parties separately, I would welcome the opportunity to attend a future Land Use Committee Meeting or other public meeting where I could field any questions that might remain regarding the process and implications of establishing a local district, and also to clarify the role of the State Historic Preservation Office in this and other efforts the City is pursuing.

Thank you for your consideration—

Mary Dunne  
State Historic Preservation Officer
