Subject: Holy Name Church land 4 Pulaski/Washington Blvd.

Dear Members of the Land Use Bureau,

I am Fr. Paul Hrebenko, Pastor of Holy Name Church, writing to kindly ask you to help us to postpone planned public hearing about city's decision to take our land. As you all know our community faces unprecedented challenge with Covid-19 which prevents us to personally attend public hearing. This is a very important issue for the Parish and we need more time to negotiate with the City of Stamford and The Diocese of Bridgeport to find solution that will be acceptable to all parties involved. As you may know our Parish started two years ago plans to partner with Keystone Capital Corp., interested in building 20 townhouses. This collaboration is absolutely necessary to help us to maintain in good condition all our buildings and secure financial stability to the parish which is a home to predominantly polish american community.

I am kindly asking you to consider postponing any decisions until members of our community can take active participation in the public hearing.

I pray for your safety and good health and your loved ones.

Sincerely,

Fr. Paul M. Hrebenko
