Michael,

In response to your earlier email with regards to our intent for the property, although the Club has no immediate plans to construct a dwelling, we recognize that affordable housing proximate to Innis Arden continues to be a part of the discussion when seeking to attract management level employees. Therefore, it is our long-term plan to purchase the vacant property and construct a single family dwelling so that we may offer offsite housing as part of a compensation package. With our ever growing management team and our goal to attract qualified employees this parcel would do just that.

Once again on behalf of the Board of Governors, we appreciate your time in handling this matter.

Sincerely,
