Hi Ellen,

Thank you, that's a very helpful consideration.

Valerie, could you please add this to the record?

Best,

Ben

Subject: Himes Lease

Ben,

I see that the lease for Congressman Himes office is on the L&R agenda for tonight's meeting.

On behalf of Stamford's non-driving population – many seniors and some members of our low-income community – I want to stress the value of having that office in the Government Center, co-located at the same site where these populations access services and programs provided by the City and our non-profit partners. While I haven't ever paid enough attention to quantify the number of cross referrals between the Congressman's office and ours, I can tell you that they have always (from Shays' days through now) been regular enough to be on my radar.

Ellen
