

Written Comments on PR31.015 - Approving Fees for Use of Ballfields (please limit to 450 words)

To, the Parks and Recreation Committee,

Good evening to all of you. I am Kieran Edmondson, a resident of the Waterside neighborhood, of the city of Stamford, Connecticut, and I am writing this brief letter, to the members of this committee, of the 31st Board of Representatives, about letting the residents of the city of Stamford, to use the ball fields during the Spring, Summer, and Autumn months, so they can participate in outdoor sports, for recreational activities that they can be involved in, by paying for these tournaments at a lower cost.

To the Parks and Recreation Committee, since that the Spring, Summer, and Fall seasons, are known for warm weather, and cooler temperatures, which is a time that many children, teenagers, and many adults at any age, can start participating in playing any type of outdoor sport, I would have to urge every one of you, to propose a monetary budget of how these local citizens, can pay in order to use these tournaments, so they can participate in playing ball, and any other type of sport, so they can enjoy doing these type of fun activities, by keeping the ballfields clean, respecting the rules of the ballfields, by looking out for other residents, and to leave the tournament, by turning off the lights when late night, arrives.

To the Parks and Recreation Committee, I urge you to pass these monetary budgets, so ballfields must be used during the warm seasons.

From, Kieran Matthew Edmondson
