Re: Proposed Ordinance Amendment

Attached please find draft changes to Ordinance Sections 231-6 and 231.44 for the Board's review and approval.

The amendments intend to accomplish the following:

1. Update the ordinance to provide more protection for pedestrians by requiring vehicles to park at least 25' from all crosswalks – not just crosswalks located at intersections. Further, the penalty for this infraction increases to a Class III violation from a Class II.
2. Increase the infraction from Class II to Class III for those who park anywhere official signs prohibit stopping or parking
3. Increase the infraction from Class II to Class IV for violating residential parking permit area regulations.

The change to Section 231.44 increases the fine from \$90 to \$120 for the following:

1. Providing false information to the Director of Operations in applications for permits.
2. Using parking permits on vehicles for which the permit was not issued.
3. Allowing nonresidents to use residential parking visitor permits for any other purpose than visiting the residential parking permit holder
4. Creating false/counterfeit parking permits and/or knowingly use such counterfeit permit.
5. Parking in a residential parking permit area without a permit.

Thank you for your attention to this matter, and should you have any questions, please contact my office.
