Item No.	Description	Committee Action
1 WQ29.007	REVIEW; Impact of Drought Conditions and City of Stamford Water Restrictions on Property with Private Wells. 03/08/17 – Submitted by Rep. Nabel	Report Made

Mr. Federici reported to the committee that:

- His office has not received any calls concerning people's wells going dry as a result of this drought
- Low yielding wells will go dry regardless of whether there is a drought, particularly if the well is shallow, but the well might recharge
- They are advising people to conserve water
- People can check the status of their wells with the person who drilled it
- People whose wells go dry can drill a new well, but that raises a risk regarding the quality of the water
- A well that runs dry may recharge
- The new irrigation ordinance would apply to people with wells

Chair Nabel adjourned the meeting at 7:22 p.m.

Respectfully submitted,
Susan Nabel, Chair
