Dear Lord, as we reflect on the critical issues of our times, ranging from the destruction of peoples' lives from dependency on drugs and alcohol; to the ever present needs of the poor, the homeless and all disadvantaged people; to the growing hope of freedom in Russia, Eastern Europe and South Africa and other countries around our planet, let us stop and thank you, Lord, for the many blessings you have bestowed upon us: The blessings of life, the blessings of love in our families, with our friends and with our children, and the blessing of freedom; freedom to think and speak as we wish and freedom to work together in a democracy to solve our common problems and make a better life for ourselves and our children.

MR. DeLUCA said the Committee 5 to 2 to approve with following amendments. Seconded.

Mr. DeLuca Moved to approve an amendment under Parking Stickers: Resident (non-taxed car), to increase the fee from $20.00 to $25.00. Seconded.

PRESIDENT GOLDSTEIN called for a vote to approve the fee from $20.00 to $25.00. APPROVED by voice vote with no dissenting votes.
MRS. PERILLO moved to amend the parking sticker for resident/property owner from $4.00 to $5.00. Seconded.

MR. ZELINSKY asked if we were considering the amendment made by Rep. Perillo to increase the fee from the present $3.00?

PRESIDENT GOLDSTEIN stated that Mrs. Perillo's amendment is to increase the proposed $4.00 fee approved by the Parks and Recreation to $5.00. The $4.00 was also approved by the Committee.

MR. ZELINSKY stated that each year, the increase for the parking stickers comes up. He stated that several years ago when the Parks Department decided on a parking sticker, the soul and only purpose was to keep out non-Stamford residents from the beaches. Mr. Zelinsky said the original amount was $1.00 to cover the cost of printing; he said over the years, the amount has increased and the cost last year was $3.00. Mr. Zelinsky stated that this year the recommendation is $4.00 from the Committee and a motion for $5.00.

Mr. Zelinsky said that the total amount of parking stickers sold last year was 25,000, and the income was broken down: $5,000 from the $1.00 cost for senior citizens and the remaining $60,000 from the $3.00 cost from Stamford residents. Mr. Zelinsky said the increase, if approved based on the Committee's recommendation, would raise $20,000 or if Rep. Perillo's motion passes, is $40,000 assuming that the same 20,000 will buy the parking stickers at the increased price.

Mr. Zelinsky said, however, with the taxes raised approximately 5% last year and, as we heard, they could be raised as much as 19% next year. Mr. Zelinsky stated that he read in the local paper that because of the current economic climate in our city and the Mayor's request for a 5% decrease in all department budgets for next year, the opening of beaches may be delayed and the hours shortened; less lifeguards; less beach clean-ups and possibly more cuts affecting the use of the beaches by residents.

Mr. Zelinsky said that he thought it was an insult to ask our city residents to pay more and get less, and if parking sticker fees are raised, it could be self-defeating because of residents getting less use of the beaches and not having them cleaned-up as in the past; residents may refuse to purchase a parking sticker, thereby, the city losing revenue and not gaining. Mr. Zelinsky stated it was the principal, and he asked his colleagues to keep it at the $3.00 level.

MR. STORK said he echoed Mr. Zelinsky's comments. Mr. Stork said that in talking with people around the city, the people stated that they look forward to going to the parks and beaches. Mr. Stork stated that paying the high taxes in the city over the years, this was one little thing that the people would like the city to provide for them at no additional cost. Mr. Stork stated that $3.00 was fair and he would support the motion later if it is made. He said he would vote against the $5.00 fee.
MR. OWENS apologized to the Parks and Recreation Committee for missing this evening’s meeting prior to the Caucus meeting. Mr. Owens stated that due to many city employees being laid-off, other company lay-offs and cutbacks in the city, he said he wanted to see the $3.00 to $5.00 increase denied. Mr. Owens said the increase would represent a 66.67% increase in beach sticker fees; that is much more than the increase in peoples’ wages in the last ten years. Mr. Owens said if fees were increased to cover user, maintenance and administrative costs for operating the parks, then an increase should be made at a rate that everyone in the City of Stamford could afford. Mr. Owens said an increase of 66.67% is not right and asked the Board to do the right thing.

MR. BOCCUZZI stated he would speak in favor of the $5.00 fee. He stated that the tax increase last year was 1.9% and the 19% that is rumored is a no-no as far as the administration is concerned. Mr. Boccuzzi stated that when the beach sticker was initiated, it was to control the cars that come to the beaches. Mr. Boccuzzi said if it is said the $1.00 was for printing then that is a misconception. He said to enforce an ordinance or regulation that is adopted, there must be people in place during the summer and at parking areas to enforce the sticker; the $1.00 or $3.00 does not cover the salaries paid to the personnel hired to enforce the ordinance or regulation.

Mr. Boccuzzi said he understood Mr. Owens’ problem percentage-wise, but if the $5.00 fee is extended over the entire season that the sticker is required, and if a person goes to the park 10 times, it would be $.50 per visit. Mr. Boccuzzi stated that in surrounding cities, $5.00 would not get you into the parks for one day. He did not think the amount to be exorbitant for the entire season. Mr. Boccuzzi said that whatever income is derived from user fees goes into the general fund and therefore, goes into the tax base. Mr. Boccuzzi asked his colleagues to vote for the $5.00 fee.

MR. DeLUCA stated that the comments regarding the stickers for a $1.00 to cover the printing years ago may have been the thinking then; but today, the labor costs have risen and many constituents tell him that they do not use the beaches and why should they pay for the ones that do. Mr. DeLuca said that when we look at what surrounding areas charge, $5.00 is a fantastic price to pay for a sticker that you can use everyday. Mr. DeLuca said that comparisons are being made of high salaries paid by other communities but nothing is said regarding user fees in surrounding areas. Mr. DeLuca urged members to vote for the $5.00 fee.

MR. WHITE stated that the problem which really has never been resolved is does the community make available at modest costs as a public service the recreational facilities or are they to be self-supporting? Mr. White stated that many times business people are commissioners and they want everything to be self-supporting. He said that he did not opposed the $5.00 fee and stated that most of the recreational facilities should not be on a self-supporting basis but a public service the community makes to its population. He said that some of the activities could become, to a certain extent, reasonably self-supporting.
MR. LYONS Moved the question. Seconded.

PRESIDENT GOLDSTEIN called for a vote to Move the question. APPROVED by voice vote with no dissenting votes.

MR. ZELINSKY stated that this item came up in past years, and fortunately, the Committee has voted to keep the particular tennis fees the same each year. He pointed out to his colleagues that there are various tennis programs put on for the minority and poor children during the summer; teaching them the game of tennis, and so forth. Mr. Zelinsky said that after the program was over, he had seen several youngsters that would have liked to use the courts at Scalzi Park but they were unable to pay because they could not afford to pay the $1.50. Mr. Zelinsky stated that he wished for some recommendation under the Tennis fees for under eighteen year olds to use the Scalzi Park Courts for maybe $.50 or for free. Mr. Zelinsky said that he would like to see the fee at a $1.50 as it has been. He said he was not against user fees and stated that how much would $.50 lower the mill rate? Mr. Zelinsky stated it was not fair for the youngsters after they learned to play the sport.

MR. DeLUCA stated that Mr. Zelinsky should have looked at the fee schedule. Mr. DeLuca said that on the schedule under item 5, it reads, "Under 17 (before 3PM Mon.-Fri) -0-"; you can play free. Mr. DeLuca stated that the Committee felt that the youngsters are getting a break and they have Monday through Friday until 3 p.m. to play for free; after 3 p.m., then the adults coming out of work play and the courts should be freed up for them to play.

MRS. POWERS stated that economic conditions in the city have changed. She said the usage of the parks has increased tremendously since the fee schedules and rationals for them were formed. Mrs. Powers stated that increasing the sticker fee is a positive step and the tennis fees should also be increased.

Mr. Zelinsky said that the revised version of the proposed ordinance was sent to all members on Friday, March 2. He said that while he was in Caucus, he learned that some members did not receive their copies, therefore, did not have time to look at the revisions.

Mr. Zelinsky Moved to keep the proposed ordinance in Committee so members that did not have the opportunity to read the ordinance have more time to go over it. The motion was Seconded.

MRS. PERILLO asked that something be received from the Corporation Counsel because any words or paragraphs that are rewritten are very important. She said she received her copy and saw many changes in it that are questionable. Mrs. Perillo stated she would like an opinion from Corporation Counsel on the changes to insure they would be correct. She asked that the Committee follow through on this.

MR. RUBINO said he was in favor of returning the proposed ordinance to Committee. He stated that on each members' desk this evening was a memo regarding an issue that came to his mind after he attended the meeting. Mr. Rubino asked that the Chairman submit his language to the Corporation Counsel to check if it is legal or not.

Environmental Protection Committee - Stanley Esposito, Chairman

Mr. Esposito said the Environmental Protection Committee met on February 27, 1990, at 7:30 p.m. Attending were Committee members Stanley Esposito, Chairman; John Zimmerman, W. Dennis White and Audrey Maihock. Also attending the meeting was Ed Ayres from Keep America Beautiful Program; Robert Neu, Director of Parks and Recreation; Jason Bowman, Brad Rose, Laura Martino, Jared Cohane and Sarah Fullilove, all concerned citizens from Stamford High School; Jeannette Semon, Public Works Department; Rep. Joseph Lovallo, and John Roman, WSTC. A complete report was received by all members of the Board. The remarks in these Minutes were a part of the written Committee report.

Mr. Esposito stated that in the near future, a Sense-of-the-Board Resolution regarding the matter of littering will be drafted by the Committee.

1. Matter of comprehensive anti-litter program for the City of Stamford. Submitted by Stanley Esposito, Chairman, Environmental Protection Committee, 1/12/90. Report made and held in Committee 2/5/90.

Held in Committee

Mr. Esposito stated that Robert Neu, Director of Parks and Recreation, said that two problems facing the Parks were careless litter and illegal dumping. Mr. Neu said he hoped to put trash cans on the beaches and in the parks, which would help separate garbage; one for deposit of cans and bottles and one for paper goods, etc. This would help the recycling effort and avoid the mess caused by those dumping trash containers in search of deposit cans and bottles.

Mr. Esposito said that Mr. Neu also stated there were many ways in which private sector corporations and special interest groups could help the Parks & Recreation Department combat litter. He said they could help by providing the money for extra trash barrels, and by volunteering to help pick up litter. Mr. Neu said that an organized anti-litter program must be a continuous one, and that in order for it to be a success, we may have to engage the services of an outside service similar to "Keep American Beautiful" to help organize the anti-litter effort.

Mr. Esposito said that Mr. Neu and Jeannette Semon spoke of "buy back centers" where recyclable material, cans and bottles are brought for immediate redemption. These redemption centers are successful in other parts of the country because money is the key incentive for people to recycle and not litter.

Mr. Esposito stated that Mr. Edward Ayres from "Keep American Beautiful" said that a strong public/private partnership would help the anti-litter effort. Mr. Ayres said that people litter when they don't have a strong sense of community, and in order to help stop litter, people's attitudes have to change to think that litter is not an acceptable thing in the community.
ENVIRONMENTAL PROTECTION COMMITTEE: (continued)

MR. ESPOSITO (continuing) stated that the KAB program helps by identifying litter trouble spots; giving resource help as regards to information on why people litter, changing attitudes, building a strong sense of community, and providing a network of city managers and ideas from other cities who have successful anti-litter programs. Mr. Esposito said that in order to be a participant in the KAB program, the cost would be $4,000 for the first year and then $400 per year thereafter.

Mr. Esposito said that Mr. Neu stated that Aid for the Retarded Program help to pick-up litter in the downtown city parks daily. However, he said that people litter so much that it is difficult to keep up with the problem.

MR. ESPOSITO stated that legislation will be coming from the Corporation Counsel's office regarding local recycling. He said that Jeannette Semon said that the city will be recycling plastics. She stated our efforts will begin on July 1, 1990. She also stated that technology is changing and soon all types of plastics will be able to be recycled; polystyrene is being currently recycled by Rubbermaid into wastebaskets, pails, rulers, etc. Mr. Esposito said that currently, metal is the biggest income producer in the recycling industry, while newspaper is the lowest income producer.

TRANSPORTATION COMMITTEE - Mary Lou Rinaldi, Chairwoman

MS. RINALDI said the Transportation Committee met on Tuesday, February 27, 1990, at 7:00 p.m. Present were Committee members Judy Evanko, Dennis White, Joseph Lovallo, Audrey Maihock and Mary Lou Rinaldi. Also attending were Reps. Maria Nakian, David Martin and Mayor Thom Serrani.

Ms. Rinaldi stated that the purpose of the meeting was to extend the Dial-A-Ride Program to include service north of the Merritt Parkway. She said that part of the problem has always been that no one has been able to assess the demand for service in north Stamford. Ms. Rinaldi said she was happy to report that we are close to solving that problem. She stated that starting April 1, for a 60-day period, Dial-A-Ride will be extended north of the Merritt Parkway. She said this is being done on an experimental basis to better determine the demand; the existing system will be utilized which consists of six drivers and six buses. Ms. Rinaldi stated that like all other Dial-A-Ride patrons, reservations must be called in 48 hours in advance and medical needs will be given first priority.
TRANSPORTATION COMMITTEE (continued)

MS. RINALDI stated that in order to inform the public of the extended service, an announcement will appear in the April issue of the Commission on Aging Senior Flyer.

MR. WHITE that he did know why an assessment for the needs of the service north of the Parkway had to be made for the service to be available. He said the service should be available north of the Parkway as it is available in the rest of the community.

MR. MARTIN said the basic issue was equity and the matter took a longtime in coming. Mr. Martin thanked Ms. Rinaldi, Chairwoman of the Transportation Committee for working hard on the matter; he said much progress was made and after 60 days, we will see what people think then.

MRS. MELLIS stated that perhaps the media should be informed so people are aware of the service.

MRS. MAIHOCK echoed what Mrs. Mellis said. Mrs. Maihock stated that she read in the newspaper, that taxes paid by the "C" District grew by $7 to $8 million. Mrs. Maihock stated that should be enough reason for the residents north of the Parkway to be treated in the same manner as the rest of the people in Stamford.

MS. SUMMERVILLE commended Ms. Rinaldi and her Committee. Ms. Summerville stated that this was an on-going problem on previous Boards as they were also involved in the matter. She also commended the Mayor for taking a giant step in the right direction. Ms. Summerville asked that Ms. Rinaldi contact Jeannette Phillips, Director, Commission on Aging on the public relations regarding the service.
