Gentlemen:

This is to advise that we are the insurance carriers for the F.A. Bartlett Tree Experts of 476 Canal Street in Stamford, Connecticut.

During the morning hours of May 7, 1976, a drum containing liquid pesticide was caused to roll off our insured's flat-bed truck in the vicinity of Route #137 in Stamford, Connecticut. As a result said pesticide spilled on the road surface and required immediate measures for containing same.

It is our understanding that the State Environmental Protection Agency dispatched personnel to the scene. Accordingly, would you be so kind as to furnish this office with a copy of your reports so that we may complete pertinent further investigation in this matter.

Thanking you for your cooperation, I remain

Very truly yours,
