

Forum Consulting Services Inc.

Statement of Work

This SOW dated June 16, 2026 between The City of Stamford and Forum Consulting Services Inc.

CLIENT: The City of Stamford

CLIENT BILLING ADDRESS: 888 Washington Blvd, Stamford, CT 06901

CONSULTANT NAME: Kevin Gonzalez

START DATE OF ASSIGNMENT: TBD

END DATE OF ASSIGNMENT: 6/30/2027

HOURLY BILLING RATE: \$92 per hr

CONSULTANT SHALL REPORT TO: Prasant Tangirala-CIO

Regarding termination: per contract it's two weeks' notice, but we can work with you if the situation requires immediate termination

CONVERSION- After a candidate has worked 271 days The City of Stamford may hire the candidate without a fee. Should The City of Stamford choose to hire the candidate before he/she has worked 271 Days, The City of Stamford will pay Forum a temp-to-hire conversion fee based on the employee's annual compensation. The breakdown is as follows:

<u>Days Worked:</u>	<u>Fee (based on annual salary):</u>
0-90 Days	20%
91-180 Days	15%
180-270 Days	12.5%
After 271 Days	0%

DESCRIPTION OF PROJECT OR CONSULTANT DUTIES:

- Information Security Analyst
- Develop, implement and maintain Information Security policies, standards and procedures
- Conduct targeted and *ad hoc* risk assessments and vulnerability scans across systems, applications and networks; recommend and implement mitigations.
- Set up and maintain the risk taxonomy, risk register and control inventory.
- Conduct SOC (System and Organizational Controls) testing and SOC audits to assess the internal controls, focusing on data security and operational integrity.
- Set up a framework for conducting an annual technology Risk and Control Self-Assessment (RCSA) to systematically identify, assess, and mitigate technology risks within the operations
- Monitor, analyze, and respond to security events and incidents across enterprise systems
- Investigate cybersecurity breaches and lead incident response activities, including remediation and containment.
- Support and maintain security tools including SIEM, IDS/IPS, DLP, and endpoint protection.
- Participate in audits and compliance assessments, including POA&M development and remediation tracking.
- Provide security awareness training to employees and stakeholders to promote a culture of security.
- Serve as the primary point of contact for threat intelligence, cybersecurity trends, information security risks, and risk mitigation strategies.
- Develop and maintain information security policies, procedures, and standards in compliance with federal regulations (e.g., FISMA, NIST, FedRAMP).
