**SUMMARY OF PROPOSED ORDINANCE**  
**ORDINANCE AMENDING CHAPTER 209 OF THE CODE OF ORDINANCES, CONCERNING**  
**SUSTAINABILITY AND THE REGULATION OF SINGLE-USE FOOD WARE IN FOOD ESTABLISHMENTS**

**NOW THEREFORE, BE IT ORDAINED BY THE CITY OF STAMFORD THAT:**

In recognition of the seriousness of climate change and its effects on society, and in recognition of Mayor Caroline Simmons' Executive Order EO\_005\_230417 Climate, directing the Administration and all applicable City Departments and Agencies to adopt initiatives that address climate change and sustainability, the Stamford Board of Representatives will hold a public hearing on a proposed ordinance to amend Chapter 209 of the Code of Ordinances concerning sustainability and the regulation of single-use food ware in food establishments.

The proposed ordinance would prohibit the use of most single-use plastic food ware and plastic-lined containers in both dine-in and take-out settings. Dine-in establishments would be required to use only reusable food ware, while take-out packaging would need to be biodegradable, PFAS-free, and certified compostable. Plastic accessories, such as utensils and straws, would not be automatically included with take-out orders, but could be provided upon specific customer request.

The proposal is intended to reduce plastic waste, protect public health, and support Stamford's broader environmental and climate goals. The ordinance would be enforced by the City's Health Department, with escalating fines for violations. All penalties collected would be deposited into a dedicated Sustainability Fund to support implementation and enforcement efforts.

If enacted, the ordinance would take effect six months after passage. For schools, it would take effect at the start of the next school year following passage. Extensions may be granted by the Director of Health if additional time is needed for implementation.

The public is encouraged to attend the hearing and provide comment on the proposed ordinance.
